#### TOOK PRENCH LEAVE. A Deputy Sheriff Absconds with 82,060.

The Chattanooga Times of April 20 says: There was considerable excitement about the Courthouse yesterday, over the reported absconding of Deputy Sheriff John G. Reed. Upon investigation we learned that his absence was first discovered from the remark of a woman of the town, named Mollie Eakin, that Read had given her \$100 to meet him at Memphis. It was then ascertained that he had failed to return a number of executions in his hands upon which he had collected the money, and that the total amount of money belonging to parties in court in his hands is about \$2,000. Sheriff Connor telegraphed the authorities at Memphis yesterday to arrest him, and unless he has already gone to Arkansas, where he was bound, there is a probability of his apprehension. Mr. Read has always borne a good character in this community, and we are at a loss to account for his con-

OUR CITY.

To the Editors of the Union and American The question has frequently occurred, is this a city, town or a village? Are the laws never to be enforced? Let me explain; in passing the Battle House the other day, the sand thrown by the painters on the front wall was threatening for hours to injure the eyes and became very annoying to all passing by it. In turning on Summer to Union street, the whole sidewalk was obstructed by some one preparing to build a house, and one had to take the middle of the street or cross over. REV. DR. HUSTON. Reported Developments. NEW YORK, April 20 .- A Baltimore spe-

cial says the committee baving in charge the investigation into the conduct of Rev Dr. Huston, has so far completed their labors as to be nearly ready to frame a regular church indictment, upon which he will be called to auswer. The committee having only two days in the week to work, the investigation is naturally slow, as there are a great many charges being brought against him from different portions of the country where he has ministered. Almost every day the committee are in receipt of communications concerning his past career, which, if true, show a life of licentious crime never before heard of in this country. The mother of a young school girl whom he is alleged to have ruined in this city, has given her testimony to the committee, but
